

Specializing in Process Equipment
Serving Indiana since 1968

120 North Rangeline Road / PO Box 856, Carmel, IN 46082
Tel: 317-846-6104 / Fax: 317-844-5869 www.canaley.com

LIGHTNIN

Full range of top entry mixers from 1/30th to 1000 HP
Lab mixers for small volumes of 1 to 100 L
Portable mixers suitable up to 5000 gallon batches
Rugged top entry mixers for all applications
All-stainless steel mixers for clean rooms
Magnetic driven mixers – top or bottom entry
Full service and repair on all competitors mixers

Industrial mixers for all process applications

ALFA LAVAL

Plate & frame heat exchangers –full range of sizes
Spiral heat exchanger for difficult fouling conditions
All-welded compabloc for superior heat transfer
Suitable as condensers, evaporators, and reboilers
Service center for plate reconditioning located in Indianapolis area

Plate & frame, spiral, or welded heat exchangers

SWECO

Round vibrating screeners from 18" to 72" with options:
multiple decks; self-cleaning screen kits, magnum screens
Scalping, sizing separations and fines removal processes
SentryScan system for broken screen detection
Rectangular screener and vibratory sifters
Grinding mills for particle size reduction
Horizontal centrifuges for industrial applications

Vibrating screens to separate solids

TETRA PAK

Sanitary plate & frame heat exchangers
Scraped surface heat exchangers
Homogenizers, separators and filtration equipment
Integrated systems for dairy and related food industries

Equipment for sanitary applications

INTEGRATED SEPARATION SOLUTIONS

Treatment and purification systems for industrial high purity water, food & pharma sanitary water and wastewater processes
Reverse osmosis and other membrane technologies
Multimedia & greensand filtration systems
Ion exchange - Water softening & conditioning

High purity water – RO & filtration systems

SWECO – Industrial Treatment Services

Environmental lagoon clean-up & related services
Completely equipped centrifuge trailer to perform full-scale onsite centrifuge performance demonstrations
Rental systems available

Vibrating screens to separate solids

ACME PROCESS EQUIPMENT

Level/flow expertise – comprehensive source of products & technologies for contact and non-contact applications.
Density, pH, HVAC, analysis, pressure, temperature, valves and services.

Instrumentation accessories

ENGINEERING / SERVICE

Need a tank and pump skid? Canaley Process Equipment can design and supply your system with mixers, heat exchangers, separators, pumps tanks and all necessary instrumentation to suit your needs.

Need help changing or cleaning your heat exchanger plate pack? Canaley Process Equipment can do it for you. We will send a trained technician to your site.

System audits and inspection of separators, heat exchangers, mixers and pumps

System, Service & Maintenance

Specializing in Pumps and Tanks
Serving Indiana since 1968

120 North Rangeline Road / PO Box 856, Carmel, IN 46082
Tel: 317-846-6104 / Fax: 317-844-5869 www.canaley.com

WATSON MARLOW / BREDEL

Peristaltic hose and tube pumps
Metering, dispensing and transfer capability
Industrial, food grade and USP Class VI tubing
Ideal for abrasive slurries and wide range of viscosities

Peristaltic pumps for all processes

SEEPLEX

Industrial and sanitary progressive cavity pumps suitable for pumping water-like liquids to highly viscous, non-flowing materials.

Progressive cavity pumps for all fluids

SIHI

Liquid ring vacuum pumps and compressors
Dry-running vacuum pumps and systems
Side-channel & centrifugal liquid pumps
Hot oil pumps

Vacuum & liquid pumps for industrial applications

SPECIALTY PUMPS

One nut pump
Air operated diaphragm pumps
Quick disassembly via one nut to change diaphragm
Sanitary & critical service – 316, Teflon, ABS, Poly

Magnetically coupled centrifugal pumps
316 SS & PTFE ends

AOD & Magnetic Pumps

PLAS-TANKS

Filament wound & contact molded fiberglass tanks from 4 ft to 30 ft diameter
Field assembly when required
3 year warranty – ISO 9001 approved
ASME RTP-1 Certified for pressure vessels
Bryneer – bulk salt storage, brine saturators

Fiberglass tanks for industrial applications

SNYDER INDUSTRIES

Polyethylene vertical and horizontal storage tanks
Captor containment system – double wall tank
Manufactured to ASTM code requirements

Plastic tanks for industrial applications

METAL TANKS

Stainless steel and carbon steel tanks
Storage tanks and pressure vessels

INDIAN TUFF TANK

Stainless steel and carbon steel tanks

Metal tanks for industrial applications

IMT – LIFT STANDS

Hydraulic mixer lift stands enable complete mixer shaft and impeller assemblies to be raised above your tank

Ideal when one mixer is used to make product in numerous different tanks

Stainless steel or aluminum constructions

Fixed mount or on casters

Lift Stands for Mixer Portability
